History

#1 - 05/16/2017 12:03 PM - Helmut Oberhollnzer

Hallo,

nachdem ich fuss-server create gestartet habe:

```
TASK [nfs : Install package nfs-kernel-server by apt] *****
```

```
An exception occurred during task execution. To see the full traceback, use -vvv. The error was: SystemError: E:Could not open file /var/lib/apt/lists/ftp.it.debian.org_debian_dists_jessie_main_binary-amd64_Packages - open (2: No such file or directory) fatal: [localhost]: FAILED! => {"changed": false, "failed": true, "module_stdout": "Traceback (most recent call last):\n File \"/tmp/ansible_ps_fY_/ansible_module_apt.py", line 903, in <module>\n main()\n File \"/tmp/ansible_ps_fY_/ansible_module_apt.py", line 799, in main\n cache = apt.Cache()\n File \"/usr/lib/python2.7/dist-packages/apt/cache.py", line 107, in init\n self.open(progress)\n File \"/usr/lib/python2.7/dist-packages/apt/cache.py", line 156, in open\n self._records = apt_pkg.PackageRecords(self._cache)\n SystemError: E:Could not open file /var/lib/apt/lists/ftp.it.debian.org_debian_dists_jessie_main_binary-amd64_Packages - open (2: No such file or directory)\n", "module_stdout": "", "msg": "MODULE FAILURE"}
```

#2 - 05/17/2017 10:06 AM - Helmut Oberhollenzer

- *Status changed from Nuovo to Chiuso*
- *Assignee set to Helmut Oberhollenzer*
- *% Done changed from 0 to 100*

Hat sich erledigt,

war wohl nur ein zeitweiliges problem, heute hat alles wieder normal funktioniert.
