Per capire meglio, con "controller group disabilitato" intendi creare un utente senza specifica il controller group?

#3 - 05/31/2017 04:34 PM - Michael Guggenberg

si

#4 - 06/01/2017 09:23 AM - Christopher R. Gabriel

Non riesco a riprodurlo sulla mia installazione.

Se per te e' riproducibile, ti chiederei la cortesia di:

- modifica /etc/octonet.conf modificando 'DEBUG = False' in 'DEBUG = True'
- Riprodurre il problema
- Inviare tutto il testo che ottieni premendo sul link "Switch to copy&paste version" della pagina di errore.

#5 - 06/23/2017 10:04 AM - Michael Guggenberg

Non riesco più a riprodurlo, chiudo.
