

## fuss-client - Segnalazione #634

### Fallimento su lista app

10/09/2018 08:56 PM - Marco Marinello

Status:	Risolto	Start date:	10/09/2018
Priority:	Normale	Due date:	
Assignee:	Paolo Dongilli	% Done:	100%
Category:		Estimated time:	0.00 hour
Target version:			
<b>Description</b>			
Su una debian installata da iso di debian, installato ed eseguito fuss-client ottengo questo errore. Facendo mkdir in figura e fuss-client -U termina con successo.			

### Associated revisions

#### Revision 6cd1fd2e - 11/09/2018 02:52 PM - Elena Grandi

Check that /usr/share/applications exists before filling it. refs: #634

Nello specifico quale ISO di Debian?

#### #2 - 10/11/2018 08:02 PM - Marco Marinello

L'ho fatta con l'installazione via PXE "current"
